

Project 1
Simple Frame, Phase 2

Now that you have at least 40 posts on your anonymous Instagram accounts, make an archive of them. This archive will take the form of a maximum 40 second video. We will play these videos on the last day of class. I recommend using iMovie software that is provided on your iPads, as it is simple and easy to use. Through your video, please aim to present your collection in a compelling way utilizing the intrinsic qualities of video.

*Email me a link to your video on or before
Sunday, May 4th (the day before the last day of class!)*
